Weekly Report

Student Name: PUT_YOUR_FULL_NAME_HERE

Note from Instructor:

This course has 5 credits/units, and students are expected to spend at least 3 hours per credit/unit. That means I expect students to spend at least 15 hours per week for learning. Anyway, this is not required for you to receive a complete grade for not spending at least 15 hours per week. However, the weekly report will give me an idea to keep track on the learning progress that you have. From the past, some students still got 4.0 for spending less than 15 hours because they already had knowledge in this course.

Learning Progress:

Date	Hours	Type	Description
1/9/2023	3	Individual	Worked on Lab#2 Practice-its
1/10/2023	1	Individual	Took first attempt of the quiz
1/11/2023	2	Individual	Finished test and did some more work on the Lab#2

Questions:

1. On a scale of 1 to 10, please classify your perspective on material covered in the lecture (slides and demo) this week:

1	2	3	4	5	6	7	8	9
	X							
Mostly Review To Me				Equal New and Review				Mostly New To Me

2. On a scale of 1 to 10, please rate the pace of this week:

1	2	3	4	5	6	7	8	9
					X			
Slow				Just Right				Fast

3. List all topics in this week represented in the lecture (slides and demo):
- Inheritance
- Polymorphism
- Overloading & Overriding

4. (Optional) After this week, comment on any new concepts that you learned about?
There weren't any new concepts that I learned about as a whole, but I did learn some niche things that I wasn't aware of before when it comes to overriding, such as final not being overridable.

5. (Optional) After this week, what point(s) remain least clear to you?
Everything remains clear to me.

6. (Optional) List number of times that each TA (Teaching Assistant) provide the answers that helped your questions

TA	Answered

Requirements:

If you have any questions please consider the following:
- The "Learning Progress" does not have all "Date" invalid and/or correct format mm/dd/yyyy.
- The "Learning Progress" does not have "Date" sorted in ascending order.
- The "Learning Progress" does not have "Hour" non-negative.
- The "Learning Progress" does not have at least "Type" value correct.
- The "Learning Progress" has at least one record missing "Date", "Type", or "Hours".
- The "Learning Progress" has at least one record does not clearly specify who study with if the "Type" is Group/Tutor/TA.
- The "Questions" does not list **all** topics in the lecture. (concentrate on the title of each slide and demo)

- The "Questions" does not provide the scales in question #2 and question #3.

Notes:

- Leaving question #4 empty will give me an idea of having learned nothing from this week.
- Leaving question #5 empty will give me an idea of being very confident with all topics from this week.
